About this formulary guide

Finding a medication

This formulary provides two methods to search for a medication: By indication or by medication name.

- 01 To search for medications for a specific indication, visit the section titled “Formulary by indication.” You will find the following three formularies:

Standard hospice formulary | Cardiovascular formulary | Respiratory formulary

Note: Comprehensive formulary includes all Standard, Cardiovascular and Respiratory medications.

- 02 To search for medication by name, visit the section titled “Formulary by drug name.” Medications are listed by both the brand and generic names.

Cost per day

The cost per day calculation is an estimation of the relative cost impact of each medication. It is a useful tool in comparing medications. However, actual price may vary depending on the strength, dose, and dosage form prescribed.

Symbol	Estimated cost per day
¢	\$0.01 - \$0.99
\$	\$1.00 - \$1.99
\$\$	\$2.00 - \$2.99
\$\$\$	\$3.00 - \$4.99
\$\$\$\$	\$5.00 - \$9.99
\$\$\$\$\$	\$10.00 +
